Landing and takeoff requires experience with short fields, soft fields and gusty cross winds. The types of aircraft that can land safely and can land without damage to the fragile grass strip are limited - knowing your aircraft's capabilities is crucial. During hurricanes and tropical storms the airstrip can, temporarily, be under water or suffer standing water in several areas. As a guest or visitor you are responsible for making certain that you have the proper aircraft and the right experience to safely operate on the airstrip. Questions or concerns should be referred to an airstrip manager who will call or meet with you. Managers can be reached via email at: info.sallc@gmail.com.

SALLC has Operating Rules for use of the Airstrip. Please review the current rules and adhere to them while using the airstrip.

I _____ have read the Operating Rules of Salty Approach LLC. I agreed to be bound by the Rules.
